

Remember Mom

Mother's Day is May 9. Only 2 weeks away! No one appreciates a hand made gift more than Mom or Grandma. Here's a fast and easy gift your kid's can make in no time.

Purchase a liquid soap dispenser with clear soap. Soak the bottle for a few minutes so you can peel off the label. The glue residue comes off quickly with nail polish remover and a cotton ball.

Take your kids to the nearest craft store and let them choose beads, pebbles or colored stones. But keep in mind that whatever you choose should be small enough to fit into the soap dispenser. I found sea-glass or polished glass in shades of blue.

Pour out some of the soap and then add the stones.

You'll end up with a lovely soap dispenser that Mom or Grandma will enjoy using over and over. No more tacky brand labels in the powder room.
