

Santa Suit

Wrapping packages doesn't have to be a chore and it doesn't have to be expensive. I love to come up with my own Christmas wrap every year. It might take a little more time, but the effect is well worth the "ohhs and ahhs".

Nothing could be easier than wrapping gifts in a Santa Suit.

- Wrap your box with solid red paper.
- For a basic shirt size box, cut a 2 inch strip of black paper (I used black wrapping paper because it can be cut in long pieces).
- Tape the black belt in the middle of a square box or 2/3 from the top of a rectangular box.
- For the buckle use white or silver paper and cut out a square slightly larger than the width of the belt.
- Cut out a smaller square in the center and tape or glue to the belt.

Your gifts will look fun and festive under the tree and your family will be wowed!
