

One Item 12 Ways!

Little Black Dress

I started with a perfectly simple Harold's dress with very little detail. It was only \$4.99 and features a straight across bodice with small straps. It works perfectly alone, but we couldn't just leave like that! I wanted to show you how easy it is to find everything you need at the Goodwill Retail Store & Donation Center nearest you, to transform your basic LBD (little black dress) into everything from daytime office wear to a glamorous evening gown.

This week I will show you four different looks, and will do the same each week for the rest of December until I have shown you all 12. So let the looks begin!

Look #1

Allison Taylor ruffled floral blouse \$4.99, necklace \$1.99, black cloth belt \$1.99, this would be a great daytime look for the office or a luncheon date.

Look #2

Studio R black jacket with pocket detail \$4.99, striped scarf \$1.49, tailored and chic this says "chairwoman of the board". Just add some black pumps and you're all set!

**Look #3**

Lynn Ritchie patterned knit top \$3.99, Merona wooden belt (new) \$1.99, this is a way to use the dress as a sort of jumper. I would add some textured hosiery and maybe even some boots! Hip and stylish for sure!

Look #4

Finity Naturals raw silk topper \$4.99, 3 shell necklaces @ \$1.99 each, and interesting tie belt \$1.99, takes our dress in a sophisticated direction. The necklaces and belt definitely add drama, and the graphic check pattern look awesome with our LBD as the base!

Make sure to come back next week to see the next four looks! Until then don't forget that Goodwill gift cards make a great present, because you're supporting our mission as well as giving your friends and family a chance to upgrade their style!
